<CRUISING RUNS.>

<1.>	<2.>	<3.>	<4.>	<5.>	<6.>	<7.*>	<8.*>	<9.>
<DATE.>	<PLACE.>	<HOURS UNDER WAY.>	<AVERAGE REVOLUTIONS PER MINUTE.>	<MILES RUN.>	<AVERAGE SPEED.>	<COAL USED.>	<MILES PER TON OF COAL.>	<REMARKS.>
	Anchor Gear:-	Respectfully invite your attention to report of Lieut F. C. Starr, U S. N dated August 1912. This gear is worn out and beyond repair; in its present condition it is dangerous to those who operate it.						
	Boats:-	Whaleboat. 41 N is .absolutely worthless and beyond repair; should be surveyed. Cutter 153 N. has seven ribs rove in, planking ruined; stern sheets torn from body; risings gone; in short a complete wreck. This boat was used to good advantage in flood districts of Columbus and Zanesville Ohio; should be surveyed. Cutter Y 859 Excellent Gig Y 1115 Excellent Sailing Launch N 149 Back bone broken, not worth repairing; should be surveyed						
	Bowsprit, Crews Heads, Cat Heads, Billboards and Clamp Pieces on either side for distance of 45 ft. from bow.	On Sept. 13, 1912 The Essex collided with the upper gate of the Poe lock located .at Sault Ste Marie, Mich[igan]. damaging her bowsprit and the crews heads; owing to rotten condition of clamp pieces it was impossible to replace the crews heads, which were cleared away as wreckage. Forty five (45) ft of the clamp pieces on either side of the ship are rotten; owing to this condition of clamp pieces both Cat Heads and Bill boards are now in a dangerous condition. Recommend that when new anchor gear is installed. old cat heads be abandoned and the new type of tripping gear be installed. When new clamp pieces are provided it will be necessary to also furnish 45 ft of new rail, carrying same to bowsprit for a finish; deck over old heads; providing small hatched for same which would convert this space into ideal boatswain lockers.						
	Gun Deck alterations.	Recommend that present obsolete head on port side be removed and that a sanitary head with six seats, a urinal and shower bath for enlisted men be installed. On the starboard side remove present obsolete Officers head, replace same with new, provide shower for officers and install an open iron trough with six faucets, to be used by enlisted men in lieu of a wash room.						

*The above data will be taken whenever a run is of sufficient length to enable it to be done. The speed will be varied to determine if there is an economical speed. See columns 7 and 8.
